NOTES TO FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

The financial statements of Tunis International Bank for the year ended December 31, 2011 were authorised for issue in accordance with resolution of the Board of Directors on 13 February 2012.

Tunis International Bank S.A. (TIB) was established in June 1982 in Tunisia as a fully licensed Bank operating mainly with non residents under the current Tunisian law 2009-64 of August 12th, 2009 and under the supervision of the Central Bank of Tunisia. The main activity of the Bank is corporate and private Banking and Money Market operations. The Bank is exempted from corporate tax for activities with non residents.

The Bank's registered address is 18, avenue des Etats Unis d'Amerique P.O. Box 81 – Le Belvedere 1002, Tunis, Tunisia.

TIB is a subsidiary of Burgan Bank (Kuwait), member of KIPCO Group (Kuwait).

2. ACCOUNTING POLICIES

2.1. Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the International Accounting Standards Board (IASB).

The financial statements have been prepared on a historical cost basis except for financial assets measured at fair value and financial assets measured at amortized cost.

The financial statements have been presented in US Dollars being the functional currency of the Bank.

2.2. Significant accounting judgments and estimates

In the process of applying the Bank's accounting policies, management has used its judgment and made estimates in determining the amounts recognised in the financial statements. The most significant use of judgment and estimates are as follows:

Impairment losses on loans and advances

The Bank reviews its non performing portfolio at each reporting date to assess whether an allowance for impairment should be recorded in the income statement. In particular, judgement by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the allowance.

In addition to specific allowances, the Bank also makes a collective impairment allowance against exposures which, although not specifically identified as requiring a specific allowance, have a collectively risk of default.

2.3. Change in accounting policy and disclosure

The following standard was adopted by the Bank for the current year:

IFRS 9, Financial Instruments: Classification and Measurement, was issued in October 2010 with mandatory application from 1 January 2015 with permitted early adoption. The bank decided to adopt IFRS 9 early, as well as the related amendments to other IFRSs, because the new accounting standard better reflects the Bank's business model for managing such assets. The Bank chose 1 January 2011 as the date of initial application of IFRS 9. In accordance with the transition provisions of the standard, comparative figures have not been restated.

IFRS 9 replaces some disclosures of IAS 39 related to the classification and measurement of financial assets. It requires financial assets to be classified, at the point of initial recognition, into two measurement categories: those measured at fair value and those measured at amortized cost. The classification depends on both the entity's business model for managing the assets and their contractual cash flow characteristics.

The main effects resulting from an assessment of the financial assets held by the Bank at the date of initial application of IFRS 9 are shown in the table below:

| _ | IAS 39 carrying amount US\$ | Classification differences US\$ | Measurement differences US\$ | IFRS 9 carrying amount US\$ |

Impairment of financial assets

Financial assets at amortised cost:

Where there is objective evidence that an identified financial asset is impaired, specific provisions for impairment are recognised in the income statement. Impairment is quantified as the difference between the carrying amount of the asset and the net present value of expected future cash flows discounted at the asset's original effective interest rate where applicable. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the income statement. The carrying amount of the asset is reduced directly only upon write-off. The criteria that the Bank uses to determine that there is objective evidence of

- Delinquency in contractual payments of principal or interest
- Cash flow difficulties experienced by the borrower
- Breach of loan covenants or conditions
- Initiation of bankruptcy proceedings
- Deterioration in the borrower's competitive position
- Deterioration in the value of collateral.

2.4. Summary of significant accounting policies

(a) Foreign currency translation

impairment loss include:

Translation of foreign currency transactions

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rate of exchange ruling at the balance sheet date. All differences are recognised in the income statement. Income and expenses items incurred in foreign currencies are translated, into the functional currency monthly using the functional currency rate of exchange prevailing at that date.

(b) Investments

All investments are initially recognised at cost being the fair value of consideration given and including acquisition charges associated with the investments. After the initial recognition, investments, other than investments in associated companies, are measured as follows:

Financial assets designated at fair value through P&L:

Investments classified as "Financial assets designated at fair value through P&L" are measured at fair value. Fair value is determined by reference to quoted bid prices. Fair value of investments listed on inactive markets and unlisted investments are determined using other generally accepted methods such as discounted cash flows or

adjusted prices of similar investments. Realised and unrealised gains and losses on "Financial assets at fair value through P&L" are included in the income statement.

Financial assets at fair value through other comprehensive income:

Investments have been presented in financial assets at fair value through other comprehensive income in accordance with IFRS 9 to better reflect the Bank's business model for managing such assets.

Investments classified as "Financial assets at fair value through other comprehensive income" are measured at fair value. Fair value of investments listed on active markets is determined by reference to quoted bid prices. Fair value of investments listed on inactive markets and unlisted investments are determined using other generally accepted methods such as discounted cash flows or adjusted prices of similar investments. Investments whose fair value cannot be reliably measured are booked at cost. All fair value gain or losses are recognised in the statement of comprehensive income and not recycled through the income statement. Dividend income is recognized in the income statement.

Financial assets measured at amortized cost:

Financial assets which are held within a business model whose objective is to hold assets in order to collect contractual cash flow and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are carried at amortised cost, less allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition. Any gain or loss on such investments is recognised in the income statement.

Financial assets - classification prior to 1 January 2011

All investments are initially recognised at cost being the fair value of consideration given and including acquisition charges associated with the investments. After the initial recognition, investments, other than investments in associated companies, are measured as follows:

Investments carried at fair value through P&L:

Investments classified as "Investments carried at fair value through P&L" are measured at fair value. Fair value is determined by reference to quoted bid prices. Realised and unrealised gains and losses on "Investments carried at fair value through P&L" are included in the income statement.

Investments carried at fair value through equity:

Investments classified as "Investments carried at fair value through equity" are measured at fair value. Fair value of investments listed on active markets is determined by reference to quoted bid prices. Fair value of investments listed on inactive markets and unlisted investments are determined using other generally accepted methods such as discounted cash flows or adjusted prices of similar investments. Investments whose

fair value cannot be reliably measured are booked at cost. The fair value changes of *Investments carried at fair value through equity* are directly recognised in equity. Realised gains and losses on "*Investments carried at fair value through equity*" are included in the income statement.

Investments held to maturity:

Investments which have fixed or determinable repayments and which are intended to be held to maturity are carried at amortised cost, less allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition. Any gain or loss on such investments is recognised in the income statement if the investment is derecognised or impaired.

Impairment of investments

The Bank treats investments as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists.

(c) Deposits with Banks and other financial institutions

Deposits with Banks and other financial institutions are stated net of any amounts written off and allowance for impairment.

(d) Allowance for possible losses on income earning assets

The Bank provides for possible losses on its income earning assets based upon a review and evaluation of its exposures, taking into consideration the applicable regulation of Central Bank of Tunisia. Income earning assets include placements with other Banks, loans and advances, marketable securities investments and commitments and contingencies arising from off balance sheet items.

The Bank has estimated the allowance for possible losses on income earning assets based upon all the circumstances and events known at the date of these financial statements. The allowance for loan losses comprises specific provisions against loans and advances and a collective allowance.

Specific allowances are calculated based on the borrowers' debt servicing ability and adequacy of security. Specific allowances are made as soon as the debt servicing of the loan has been identified as doubtful and when management considers the estimated repayment realisable from the borrower is likely to fall short of the amount of principal and interest outstanding. These are treated as non-performing loans.

Collective allowances are maintained for losses that are not yet identified but can reasonably be expected to arise, based on historical experience, from the existing overall credit portfolio over its remaining life. In determining the level of collective allowances, management also refers to the composition of the portfolio, industry and the Tunisian Central Bank requirements.

(e) Cash and cash equivalents

Cash and cash equivalents comprise cash and those balances of the demand and call deposits with Banks including Central Bank and financial institutions.

(f) Offsetting

Financial assets and financial liabilities are only offset and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognised amounts and the Bank intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

(g) Trade and settlement date accounting

All purchases and sales of financial assets including "regular way" ones are recognised on settlement date.

(h) Interest income and expenses

The Bank recognises interest income and expenses on an accrual basis. The Bank does not recognise interest income on loans or other income earning assets which are classified as non-performing.

Loans and other income earning assets are classified as non-performing when these are classified as doubtful or loss, respectively class 2, 3 and 4 following the regulations issued by Central Bank of Tunisia, or when in the opinion of management, collection of interest and/or principal is doubtful.

When a loan is classified as non-performing, any interest income previously recognised but not yet collected is reversed. Interest on non-performing loans and other income earning assets under Central Bank of Tunisia guidelines is recognised in the statement of income only to the extent of cash received.

(i) Fixed assets and depreciation

Fixed assets are stated at cost less accumulated depreciation. Expenditures which extend the future useful life of assets or provide further economic benefits are capitalised and depreciated. Fixed assets are depreciated using the straight line method over their estimated useful life.

8.3 Allowances for loan losses

The movements of allowance for loan losses are as follows:

| | Specific allowance | Collective allowance | Total |
|-----------------------------|--------------------|----------------------|------------|
| Balance at 31 December 2010 | 12 830 000 | 1 515 243 | 14 345 243 |
| Allowances of the year | 2 981 544 | -206 560 | 2 774 984 |
| Balance at 31 December 2011 | 15 811 544 | 1 308 683 | 17 120 227 |

In line with Central Bank instruction addressed to all banks in order to build up collective provision to cover potential risks arising from the ongoing, local as well as international, economic and financial environment. TIB has made a collective provision allocation amounting to 1 309 KUS\$. This amount has been calculated using the model as indicated in the CBT circular N°2012-02 of January 11, 2011 followed by the circular N°2012-8 of March 2, 2012.

22. FAIR VALUE HIERARCHY

IFRS 7 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Bank's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 Quoted prices in active markets for identical assets or liabilities. This level includes listed equity securities and debt instruments on exchanges.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 Inputs for the asset or liability that are not based on observable market data (unobservable inputs). This level includes equity investments and debt instruments with significant unobservable components.

This hierarchy requires the use of observable market data when available. The Bank considers relevant and observable market prices in its valuations where possible.

| | Level 1 | Level 2 | Level 3 | TOTAL |
|---|-----------------|-----------------|---------|-------------|
| Financial assets designated at fair value through P&L | | | | |
| Equity Securities | 2 042 874 | - | - | 2 042 874 |
| Debt Securities | _ | - | - | - |
| Financial assets at fair value through other comprehensive income | | | | |
| Equity Securities Debt Securities | 12 511 913 - | 16 636 921 - | - | 29 148 834 |
| Financial assets measured at amortized cost Equity Securities | _ | _ | _ | _ |
| Debt Securities | 26 829 336 | 5 383 870 | - | 32 213 206 |
| Investments in associated companies | | | | |
| Equity Securities | - | 49 155 151 | - | 49 155 151 |
| Debt Securities | - | - | - | - |
| | 41 384 123 | 71 175 942 | | 112 560 065 |

23. Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future profitability or the fair values of financial instruments.

The Bank's interest sensitivity position is based on maturity dates and contractual repricing arrangements. As at **31 December 2011** it was as follows:

| | Up to 3 months | 3 month to 1 year | Over 1 year | Non interest bearing items | TOTAL |
|---|----------------|----------------------|----------------|-------------------------------------|-------------|
| Bank demand and call deposits | 13 407 666 | - | - | 1 358 232 | 14 765 898 |

| British Pounds | | |
| Assets | 0.40 - 0.47 | 0.51 |
| Liabilities | 0.25 - 0.38 | 0.40 |

24. CURRENCY RISK

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Bank considers the US Dollar as its functional currency. Positions are monitored on a daily basis and hedging strategies are used to ensure positions are maintained within established limits.

The Bank had the following net exposures as of 31 December 2011:

| | 2011 - 000'USD | | | |
|--------------------|----------------|----------------|--|--|
| | Long position | Short position | | |
| | | | | |
| | | | | |
| Euros | - | -1 389 | | |
| Tunisian Dinars | - | -4 | | |

28. CREDIT RISK

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Bank manages credit risk by setting limits for individual counterparties, and groups of counterparties and for geographical and industry segments. The Bank also monitors credit exposures, and continually assesses the creditworthiness of counterparties. In addition, the Bank obtains security where appropriate, enters into master netting agreements and collateral arrangements with counterparties, and limits the duration of exposures.

For details of the composition of the assets by geographic segment refer to note 27.

Credit risk in respect of derivative financial instruments is limited to those with positive fair values.

29. CONCENTRATIONS

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Bank's performance to developments affecting a particular industry or geographic location. The distribution of assets and liabilities by geographic region is disclosed in note 27.

30. MARKET RISK

Market risk is defined as the risk of loss in the value of on or off balance sheet financial instruments caused by a change in market prices, including changes in interest rates, foreign exchange rates and equity prices.

31. CAPITAL ADEQUACY

The risk asset ratio calculated in accordance with the capital adequacy guidelines issued by the Central Bank of Tunisia, for the Bank is as follows:

| Minimum requirement | 8% |
|------------------------------|-------------|
| Capital adequacy | 39.0% |
| Total risk weighted exposure | 212 416 073 |
| Total capital base | 82 873 823 |

TUNIS INTERNATIONAL BANK STATUTORY AUDITORS' GENERAL REPORT

Financial statements as at December 31st, 2011

To the Shareholders of Tunis International Bank,

In compliance with the assignment entrusted to us by your General Meeting held in March 26, 2010, we present below our report on the financial statements of Tunis International Bank for the year ended December 31, 2011 and on the specific procedures as prescribed by law and professional standards.

I. Report on the Financial Statements

We have audited the accompanying financial statements of Tunis International Bank which comprise the balance sheet as at December 31st, 2011, the income statement, the statement of comprehensive income, the cash flow statement and the statement of changes in shareholders' equity for the year then ended, and a summary of significant accounting policies and other explanatory information. The financial statements present positive equities of USD 83 695 635 including a net income of USD 10 307 657.

1. Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards. This responsibility includes the design, the implementation and the monitoring of such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and for making accounting estimates that are reasonable in the circumstances.

2. Statutory Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Tunisia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

3. Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Tunis International Bank as at December 31st, 2011, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

II. Report on Other Legal and Regulatory Requirements

We have also carried out the specific procedures prescribed by law and professional standards.

Based on these procedures, we have no observation regarding the consistency of the financial information included in the Board of Directors' report, with the financial statements.

We have also reviewed, in connection with our audit, the internal control procedures related to the financial information processing and reporting. We report, based on our review and as required by the article 3 of the law 94-117 dated November 14th, 1994 as amended by the law 2005-96 dated October 18th, 2005, that we have not pointed out major weaknesses which might affect our opinion on the financial statements.

Furthermore, in accordance with the article 19 of the decree 2001-2728 dated November 20, 2001, we have performed the required examination and have no observation regarding the conformity of Tunis International Bank with the regulatory requirements relating to securities accounts.

TUNIS INTERNATIONAL BANK STATUTORY AUDIOTORS' SPECIAL REPORT Financial statements as at December 31st, 2011

To the Shareholders of Tunis International Bank,

I. In accordance with the article 71 of the offshore financial institutions code, the articles 200 and followings and the article 475 of Companies Law, we report hereafter on agreements concluded and transactions carried out during the financial year 2011.

Our responsibility is to ensure the compliance of these agreements and transactions with authorization and approval procedures as required by Law as well as their accurate translation within the Financial Statements. We are not required to carry out specific extended audit procedures in order to find out such agreements or transactions. However, we have to report to you, based on information provided to us and those obtained through our audit procedures, on their characteristics and significant provisions, without giving an opinion on their usefulness and relevance. It belongs to you as shareholders to appreciate the opportunity related to such agreements and transactions as part of your approval process.

A- Agreements and transactions concluded in 2011:

We inform you that we have not been informed of any new agreement in 2011 relating to these articles.

B- Transactions related to agreements concluded before 2011:

TIB and UGB have concluded an agreement on February 22nd, 2006 which has been authorized by the Board of Directors dated on July 7th, 2006 and approved by the shareholders Assembly dated on March 18th, 2009. In the frame of this agreement, which is still in force in 2011, TIB has to pay on a yearly basis to UGB an amount of USD 225 thousand relating to assistance services in administrative, organization and banking fields.

C- Obligations and commitments towards General Management and Board members:

C-1- Obligations and commitments towards management as specified by new article 200 II § 5 of companies law are detailed as follows:

- The Chief Executive Officer compensation is defined by a decision of the Chairman of the Board of Directors. This compensation covers a fixed annual salary, bonus and other benefits. As per the bank policy, he also benefits from a retirement allowances.
- The Board members attendance fees are determined by the Board of Directors and submitted to the approval of the Annual shareholders' Meeting.

C-2- Obligations and commitments towards General Management and Board members as of December 31, 2011 are as follows:

| | Current Year Charges (USD) | Liabilities as of December 31st, 2011 (USD) |
|--|----------------------------------|--|
| Short term Management benefits (Excluding Social Security Charges) | 660 572 | 238 684 |
| Retirement benefits | 23 449 | 1 026 763 |
| Total | 684 021 | 1 265 447 |

Social security charges incurred on short term management benefits amount to USD 108 thousand.

Moreover, our audit has not revealed the existence of other operations or agreements concerned by the articles 71 of the offshore financial institutions code, the articles 200 and followings and the article 475 of Companies Law.

Tunis, March 30, 2012

AMC Ernst & Young Fehmi LAOURINE

Cabinet Mourad GUELLATY Mourad GUELLATY
